Mr. John E. Welsh  
Claim Owner  
Saveall Corporation  
P. O. Box 416  
Richfield, Utah 84701

Dear Mr. Welsh:

Re: Notice of Intention to Commence Small Mining Operations, BJ-2 and BJ-5 Project, S/015/049, Emery County, Utah

Thank you for your Notice of Intention to Commence Small Mining Operations, received by the Division on July 5, 1990. The application for the proposed BJ-2 and BJ-5 Project, located in the NE/4, SW/4, Section 29, T22S, R9E, SLBM is complete and no additional information is required at this time.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (attachments SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (attachment SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

A handwritten signature in cursive script, appearing to read "H. Shepherd".
